Fitter: 2-1/4"

Aurene [awr-een]
is a trade name used by Frederick Carder and the Steuben Glass Works for a special line of bright iridescent glass they produced from 1903 - 1934. The name Aurene is loosely based on the Latin word Aureum which means Golden.

These beautiful pieces are faithfully reproduced in America using the original techniques that Carder used at the turn of the century.
